

Bridge Map[©]

Seeing analogies is the process of identifying similarities between relationships. These are similar to the 'analogies' found on SATs with one difference being Bridge Maps can have many 'bridges'.

Bridge Maps give students a tool for applying the process of seeing analogies. On the far left, write in the relating factor. The relating factor is the similar phrase that fits both sides of an analogy. On the top and bottom of the left side of the bridge, write in the first pair of things that have this relationship. On the right side of the bridge, write in the second pair of things that have the same relationship. The bridge can continue with more relating factors.

Home Hints: spelling words, habitats or primary food sources for animals, makes and models of cars.
